The athlete and their head coach(es), at the time of the event, will also be penalized with a demerit. Should more than one athlete representing a club break this rule at the same event, only one demerit will be awarded to the head coach, and one demerit to each jumper involved. If an athlete or team wishes to rebut the deduction or demerit they must take it up with the technical committee and not the two representatives.

All music must be reviewed by team coaches, further all teams must sign a form, as part of their registration package, acknowledging that they are to have reviewed all music used by their teams, and that they find all music to be within the guidelines set out in this section. If a judge or technical committee member feels another competitor/coach entered the competition space and caused a space violation, a space violation will NOT be assessed against the competitor whose space was violated. However, a fine of \$25 will be charged to the team whose athlete or coach caused the space violation. The fine must be paid before the next competition or the team or individual could risk the loss of their, (his/her) RSC membership and not be allowed to compete.

In addition, the club making the appeal must provide hardware (cables), to allow the video to be transferred from their recording device to a laptop, so that the Technical Committee can review the video in a larger format.

5.9.3.4 The technical committee will decide if the video evidence meets these requirements.
